“Increasing Global Temperature and Changing Seasons” Discussion & Exhibition

To
The Principal

Respected Sir/Madam

We are glad to inform that we are going to have an **Discussion & Exhibition on the topic – “Increasing Global Temperature and Changing Seasons”. Discussion & Exhibition** starts from July 2016 in different schools in Vadodara for the students of **Std. VIII**. *Increasing Global Temperature* is a major atmospheric issue all over the world. Our earth’s surface is becoming warm by trapping the sun’s heat and rise in the atmospheric carbon dioxide. Effectively, increase in temperature is causing major problems to human living. It has become one of the major subjects which need social awareness among all. Students should know its meaning, causes, effects and solutions. The problem calls for immediate attention and students should come forth together and contribute their little might in order to save life on earth. Nature is sending signals in various ways that we need to do something about rise in global temperature. For this purpose we are conducting this awareness program.

Guidelines for Discussion & Exhibition:

1. Subject: ‘**Increasing Global Temperature and Changing Seasons**’.
2. Students can speak in Gujarati or English
3. Time for **Discussion & Exhibition** in your school will be **two hours** any day. Register your Date and Time
4. This **Discussion & Exhibition** is help full for **Std. 6 to 8**.

For further information please contact us at **98250 81307**.

Thanking you and appreciating your enthusiasm.

With Regards

Hemant Shah
(Program Co-ordinator)
